plan and deliver training to adult learners. The theories and practices are based on long-standing research and data with regard to effective ways to train adults in any learning environment. Some you may be familiar with, others may be new to you. We believe learning is best accomplished as a social activity, while teaching is a deliberate act.

Adult Learning Theories and Practices

In cognitivism theory, learning occurs when the student reorganises information, either by finding new explanations or adapting old ones. This is viewed as a change in knowledge and is stored in the memory rather than just being viewed as a change in behaviour. Cognitive learning theories are mainly attributed to Jean Piaget.
