Introduction to Computer Science using Java Bradley Kjell, Central Connecticut State University. This is a course in Java programming for beginners. It covers the fundamentals of programming, roughly the same material that is covered in a beginning programming course in a university or in a high school AP Computer Science course.

Introduction to Computer Science using Java

Java - a high-level programming language - is one of the best languages for learning core coding skills because of its object-oriented approach to programming. Learning the Java programming software will get you started on a path to becoming a software engineer, one of the most in-demand roles in the field of computer science.
