in 2006, to be replaced by roving CD Teams that will accompany deployment groups.

Royal Navy ships diver - Wikipedia

Tony Groom joined the Royal Navy at the age of 17, determined to become a diver. As a member of the Fleet Clearance Diving Team, he found himself diving for mines, dealing with unexploded bombs and being shot at in the Falklands War. He left the Navy in 1985 and has since traveled the world as a commercial diver.

Diver: A Royal Navy and Commercial Diver's Journey Through ...

Being a Royal Navy Mine Clearance Diver means you're part bomb disposal master, part sub-aqua specialist. Because there's only a handful of divers on any ship, you'll form close bonds with your team and be central to their - and your crewmates' - safety. This is one of the most physically demanding roles in the Royal Navy.

Divers: Stages and standards So, you've decided to join the Royal Navy as a Mine Clearance Diver, but before you can start your career, you need to pass a series of physical tests. Get through these and you can begin your Royal Navy journey. To help you prepare, here are the three stages that you will have to complete.

Royal Marines Diver - Royal Navy

British Royal Navy naval work divers are officially called Clearance Divers. During WWII they at first often used the Davis Submerged Escape Apparatus and no diving suit, and no swimfins and they swam by breaststroke. On 1942 December 17 (ref. Decima Flottiglia MAS#1942), 6 Italians on three manned torpedoes attacked Gibraltar harbor.
