Smooth Pencil Shading
Smooth shading involves very soft strokes. It is one of the most difficult types of shading to master, but it can also be one of the most effective, and can help you create the most realistic shapes and pictures. Smooth shading is done in a similar way that you would color using a crayon.

Apply light pressure with your pencil to create a base layer of shading. Use a soft pencil, like a 4B hardness, to create the middle shade. Move your arm back and forth rather than your wrist to maintain a smooth range of motion. Don't press too hard with your pencil since it will make your marks more difficult to erase later on.
