I realized this teacher was under the common misperception (perpetuated by most economics professors) that economics is about math, models, and strange lands where a complete lack of real competition is called "perfect competition" and it is possible to visualize (and measure) human happiness using "utility curves."

Teaching Basic Economics to Fifth Graders | Mises Institute

Then you are at the right place to learn economics! This is the first online course that teaches economics from a pluralist perspective. Economic pluralism means that a plurality of theoretical and methodological viewpoints is regarded as valuable in itself and is simply the best way in which economics can make progress in understanding the world.
