FAPT Ladder for PC Operators manual Page 2 of 311 | Fanuc CNC

Folks, I've been working on a 0-TB with a PMC-L and I'm trying to understand some of the differences in the older ladder representation as compared to newer PMCs. For example, a SUB24(TMRB) is a fixed timer, but the ladder for the OT-B shows one instance represented as shown in the attached screenshot. This would be a count up timer 11, fixed at 500ms, but what is the timer doing with ...

Fanuc > DOS FLADDER / PMC-L SUB Reference / Programming Manual

PMC Ladder program and parameters; Control "Programs" FANUC control executive software, comparable to the Windows operating system on a PC, is designed for the specific control. Although this should never require modifications, it is possible to add an executive module to a control to support

a new option.
