* This guide shows the Grohe GD2 system, cat. # 38642 000 but it might also help with other models as well. ** In this guide the float valve location is on the left side. Since Grohe system was designed symmetrically, it can be located on left or right depends on your water supply installation.

Repair Grohe concealed cistern guide by Avi - Schneor ...

If your Grohe K7 kitchen faucet has diminished flow, you can first remove the spray head and check for debris. Turn on the water while the spray head is removed; if the flow is heavy, the problem likely is in the spray head. Remove the check valve inside the spray head by using a screwdriver to press in the valve and hook it.
