...

Open Enterprise Server is a server operating system published by Novell in March 2005 to succeed their NetWare product. Unlike NetWare, Novell OES is a Linux distribution—specifically, one based on SUSE Linux Enterprise Server. The first major release of Open Enterprise Server could run either with a Linux kernel or Novell's NetWare kernel. Novell discontinued the NetWare kernel prior to the release of OES 2, but NetWare 6.5 SP7, and later SP8 can run as a paravirtualized guest inside the
