The rising inequality can fuel social, economic and political conflicts. That is why inequality has made it to the UN Sustainable Development Goals (SDGs) list alongside poverty. Finally it seems there is some consensus that the rising level of income inequality must be avoided. The next question is how to minimise income inequality.

In a new DLP Concept Brief, I argue that development work could be both more politically smart and more effective if it addressed this blind spot, focusing on six intimate links between gender and power.. Gender divides power. Inequalities between men and women are one of the most persistent patterns in the distribution of power. For example, women's lack of influence
