Hal Thurman has also co-authored a marine biology textbook, written articles on the Pacific, Atlantic, Indian, and Arctic oceans for the 1994 edition of World Book Encyclopedia, and served as a consultant on the National Geographic publication, *Realms of the Sea*. He still enjoys going to sea on vacations with his wife lantha.

### Thurman & Burton, Introductory Oceanography | Pearson

Marine biologists study a wide variety of aquatic organisms, from microscopic plankton to massive whales. Most marine biologists choose a specialty field such as phycology, ichthyology, invertebrate zoology, marine mammalogy, fishery biology, marine biotechnology, marine microbiology, or marine ecology. Specialization in studying a particular species also is common.
