McQuay - Heritage Parts

The history of McQuay includes more than a century of successful activity. Its beginning is considered to be 1872, when the firm J & E Hall, specializing in the production of refrigeration and freezing equipment, was founded. This firm later acquired McQuay. McQuay was established in 1933. She specialized in the supply and service of air conditioning, ventilation and heating equipment, as well ...

Today, McQuay possesses more than 13 manufacturing plants occupying some 200,000 square meters on three continents; North America, Europe and Asia together with sales and service offices in 75 countries. With a diligent workforce of over 15,000, McQuay is dedicated to producing the best quality equipment in the air conditioning industry.

McQuay International | McQuay Air-conditioning Limited

Chillers make cold water or water/glycol fluid mixture in order to cool buildings or processes. Often used in conjunction with coils in air handlers, chillers receive warm fluid from the air handler coil or process load, lower the temperature of the fluid, then a pump returns the fluid to the air handler coil or process.
