Perkins Diesel Generator Set - Perkins Generators

STAMFORD SX460 AVR E000-24602-1P The Stamford SX460 voltage regulator is the key component responsible for both the quality and the reliability of the power that your diesel generator produces. This small, economical and critical component is the brain behind the automatic regulation of the voltage produced by your generator.

SX460 Voltage Regulator AVR - Stamford | General Power

Established in 1904, Cummins Generator Technologies manufactures alternators under the renowned NEWAGE ®, STAMFORD ® and AvK ® brands setting the industry standard, with a range extending from 7.5 to 11,200kVA, suitable for all generator set configurations. Although our products are used in a variety of applications, the common factor is that Cummins
