So now let us show you the relaxing pattern the following is your body and mind will be pleased when you are finished studying it, like winning a game.

### Topics in Algebra, 2nd Edition

I wonder if all the reviews I see are of "Topics in Algebra", 2nd ed. or "Abstract Algebra", 3rd ed. The second book is a good undergraduate introduction. However, Topics could be use at the graduate level. I. N. Herstein was a great authority and his writing has unusual clarity.
