In early work in generative grammar, the label VP was intended as a mnemonic abbreviation for the verb phrase of traditional grammar and did indeed correspond to that category. In current phrase structure theory, however, the label that corresponds to the traditional verb phrase is V', whereas VP includes a verb's subject, which the traditional ...

## **Linguistics - Chomsky's grammar | Britannica**

An alternative to (i) is the movement of a fully inflected verb to (and possibly substituting for) an empty I position in order to 'check' the tense and/or agreement features. Verb movement is sometimes called 'verb raising' in distinction to the lowering of the I to the V-position (e.g. in English). Verb movement is an instance of head movement.

One of the parameters that is open in Universal Grammar is the pro-drop parameter which is concerned roughly speaking with the relationship of government between Subjects and Verbs (Chomsky 1981a). English chooses not to have pro-drop; a Subject is required for every sentence and it cannot be inverted with the verb in declarative sentences.
